

WLI modeling group year 2014

- Research needs and issues.
- Possible Partners (Inst. and Who).
- Training needs

Research needs and issues for the Year 2014

1. Develop the objectives of modeling based on the needs.
2. Select the suitable model/s for each agro-ecosystem from existing models applied by the WLI partners.
3. Impact of “SLM” (Sustainable Land Management).
4. Bio-physical and bio-economic model.
5. Integration of teams working on the model per agro-ecosystem.

Partner possibilities:

Country	Inst.	Who
Egypt	NWRC, ARC	Nahla, Samar
Tunisia	IRA, INRAT, INAT	Ouessar, Annabi, Natij
Jordan	NCARE	Lubna and Safa
Iraq	OoAR, CoA, IZA	determine later
Palestine	LRC, ARIJ, NARC	Determine later
Lebanon	LARI, AUB	Ihab, Hadi
Yemen	AREA, NWRA	Atrosh, Nashwan
Syria	GCIAR ?	Determine later
USDA- ARS		Bautista , Ashock Alva
Texas A&M		Srini, and more?

Training Needs

1. on the selected model (Internal).
2. on job trainings.
3. Degree training from each country and with Us universities.
4. Scientific writing and reporting.
