

Nest steps of the adoption analysis

WLI Socio-economic Thematic Group

Dr. Samia Akroush/NCARE

Successful out-scaling and adoption of research outputs ?

Mechanisms for scaling up

- Field days
- Farmer to farmer
- Visits
- Linkages with other projects
- Linkages with different institutions

- **Build on the findings of the “Adoptability” study and the government agenda of the different WLI technologies.**
- **Develop a framework or a guideline for effective and practical ways to bridge the gap between research, extension, and farmers.**

➤ **Building dialogue between research and farmers?**

- ✓ What would be some ideas for developing a communication strategy to improve the dialogue between research and extension?
- ✓ What kind of changes need to happen at the institutional level?
- ✓ Who should be responsible for what?
- ✓ What can be done to improve our out-scaling strategies?

➤ **Developing strategies for scaling up/out WLI technologies.**
